

To whom it may concern-

I am very concerned about the move toward deregulation of media conglomerates. I have always believed that more independent news sources available to the public the better view we will get from listening to all of them. My comment for this open-comment time period on the subject of Cross-Ownership is that you do not pass this legislation/rules.

If media groups are allowed to do this we will only have a few voices to get news and current events from and these voices will become heterogenous and uninteresting.

Please reconsider and do NOT allow for Cross-Ownership of media outlets.

Thank you for your time,
Sincerely,
Colleen Hardin
